Brad,

This time still works for the EPA participants. We will go ahead and use your conference call-in number.

Regards,

Harry

Harry,

The team is available to meet at 12:30 pm pacific (3:30 pm eastern) today. We can use the following conference number (866 381 8625, participant code 798084#) or one of your choosing. Please let us know if this time still works for you and your team and which dial in number you would like to use.

Thanks!

Brad

Brad, Doug,

As per our previous call, attached are EPA's initial review comments on the draft Arcadis workplan for air sampling at the Martin Marietta site landfills. After you have had an opportunity to review the comments, we would like schedule a conference call to discuss any questions you might have. I would like to try and schedule a call for 12:30 pm Pacific tomorrow (7/10) or alternately on Thursday afternoon (7/12).

As we had discussed previously, there may need to be a separation of the workplan that would include 1) a Phase I health and safety and explosive/toxic gases screening investigation initially, and 2) a Phase II more detailed quantitative landfill gasses laboratory analysis phase done later based on successful resolution of the comments on the sampling methods and laboratory analysis methods that would be utilized.

Let me know if you have any questions and when you would like to schedule a call based on review of the comments.

Regards,

Harry Craig

Frederick, Christy and Harry,

Attached please find the above referenced workplan for the LMC RCRA/CERCLA landfills at The Dalles, Oregon.

Thank you,

Lynden
